

Simplicity is choosing energy efficient products.

The choice of lighting provides a simple, effective and immediate solution to capitalise on energy management opportunities.

By switching to energy saving lighting products, it helps to cut energy costs associated with home cooling as it produces 70% less heat. In fact, energy saving lighting products prevent more than 450 pounds of green house emission over its lifetime.

For more information on energy efficient products, don't miss the Philips CeTree Mobile Energy Efficient Showhome Roadshows. Catch it at any one of the following venues:

29 -30 June 2007	4 -5 August 2007	26 -27 October 2007	30 Nov - 1 Dec 2007
Jitra, Kedah	Muar, Johor (Kampung Pait Medan, Muar)	Tanah Merah, Kelantan (Kampung Guar Ipoh, Tanah Merah)	Kemaman, Terengganu (Felda Cheneh, Kemaman)
